### PRODUCT DESCRIPTION

Say yes to relaxing in your own backyard!

An outdoor sauna that comes in a minimalist and modern design combination. LUNA really redefines the concept of home wellness. You are making it all about relaxing in true elegance, with a minimalist and contemporary design.

This outdoor sauna model also comes with a changing room. You can easily use it to store your stuff or maybe you need quickly to change before stepping into the sauna.

The large sauna room window invites sunshine into the room and lets you look out into the breath-taking views.

The benches and backrest in the Modern Outdoor Sauna Luna are made from deciduous wood and together create a uniquely relaxing atmosphere.

A strong accent is set by the warm white lighting, which underlines the pleasant warmth with exceptionally soft light, like a sunset by the sea. Luna is either wood-fired or electric-heated and for the ultimate health experience, pair the sauna with sauna accessories such as the bucket and ladle, headrest, etc.

Modern Outdoor Sauna Luna features Modern design Sauna seats up to 6 persons Marine plywood frame construction Walls and roof made from spruce wood Walls and roof insulated in 10 cm rockwool (as an extra) Premium quality door fittings Adjustable ventilation Two sauna room benches

and backrests inside Warm white LED downlighting in the sauna (under the benches and in the ceiling) (as an extra) Delivery assembled or not assembled (KIT) with detailed assembly instructions

## Available Options:

All Sauna Room Interior from Deciduous Wood. The entire interior of the sauna room can be produced of deciduous wood (18 x 96 mm). As a standard, this type of wood is only used for sauna room benches and backrests.

Exterior Painting. Assembled and not assembled products can be painted. The high-quality preservative finish is professionally spray applied in the factory to three sides of the wood. The product is treated in your choice of colour.

Inside LED Lighting (For Assembled Product). In the sauna room ceilings, on the both sides under the sauna room backrests and benches. Insulated Walls, Roof. Available to order with 100 mm rockwool insulation.

Windows. Available windows modifications such as small windows at the front and/or back wall, large window or full glass wall in the back wall.

**ELECTRIC HEATER HARVIA**  
**LEGEND PRO PO11, 11**  
**KW + Harvia Xenio CX170**

**£1600**

The Harvia Legend product family is a story about authenticity and extremely durable Harvia quality. Every Harvia Legend product is part of the heroic story of Harvia, founded in 1950 and currently the world's largest sauna heater and stove manufacturer. Every Legend heater and stove is a handmade masterpiece by Harvia's master blacksmiths. The patinated steel frame of Legend contains a large number of stones, resulting in wonderfully humid and gentle clouds of steam reminiscent of those of a wood-heated sauna. Choose Legend and start your own legendary sauna story.

*Equipped with a separate control unit Harvia Xenio CX170 (included).*  
*Heater is designed to run in 400V 3-phase input!*

## Accessories

### Stones for saunas

The reason for this is that the split-face stones store plenty of heat, making the water thrown onto them vaporize efficiently on the broad fracture surface. The split-face stones are easy to stack and enable good air circulation, which saves the heating elements of an electric heater. The split-face sauna stones are selected with respect for old sauna traditions and provide bathers with proper, soft steam sensations.

### Shiny steel chimney

The steel chimney is a stylish, stainless steel chimney solution that is easy to install. The steel chimney withstands extensive changes in temperature and has mainly been designed for use with wood-heated stoves, smaller fireplaces and iron stoves in detached sauna buildings. The standard delivery of the steel chimney includes the steel chimney and a utility box with 1.0 m of non-insulated smoke pipe, a rain cap, a rubber rain flange and an installation set for the rain flange, a stainless-steel lead-through flange for the ceiling and lead-through insulation and protector. The steel chimney can easily be extended.

Bucket and ladle duo white: **£90**
